Application for Membership

The Society was founded in 1960 in time to celebrate the town's 250th anniversary in 1961. The founders stated the objectives of the Society were the collecting of facts and material relative to the history of the Town of Norton and encouragement of any cultural activities.

In the early 1970's the District 3 Schoolhouse was moved to its present location on West Main Street and is now the Society's headquarters. The interior has been restored with part of the building replicating an old schoolroom and the other part serving as a museum of artifacts relevant to Norton's history. It is suggested you call (508) 285-7070 to confirm if they are open.

Research assistance is available in the fields of genealogy and local history. Also, education programs are provided for school groups.
